

# DIRECTORS' REPORT

## UNIQUE HOTEL & RESORTS PLC

### Dear Shareholders,

Assalamu Alaikum

We, the Board of Directors, have immense pleasure to present the Annual Report of Unique Hotel & Resorts PLC (the Company or UHRPLC) along with the Audited Financial Statements for the Financial Year ended 30 June 2025 and the Auditor's Report thereon, for your valued consideration, approval and adoption.

The report also included a summary of the Company's performance, financial position of the year, as well as information on key elements of the global and Bangladesh economies. The report articulated the forward outlook and offers a detailed analysis of the Company's financial performance and competitive context for the financial year 2024-25, in compliance with regulatory framework. Despite the challenging business environment, Unique Hotel & Resorts PLC has shown great resilience and continued its growth momentum. Such strong performance has once again portrayed the sustainability of our business model and further strengthened our foothold in the industry.

The Directors' report has been prepared in compliance with Section 184 of the Companies Act 1994, the Corporate Governance Code 2018 (amendment thereof) issued by the Bangladesh Securities and Exchange Commission, Listing Regulations of Dhaka and Chittagong Stock Exchanges and all others applicable provisions. Moreover, the Directors are pleased to explain and disclose some issues, which they consider relevant to ensure more transparency in this regard. The Directors believe that the report will give greater insights of the Company's performance during the year under review.

### PRINCIPAL ACTIVITIES AND NATURE OF BUSINESS

Unique Hotel & Resorts PLC started its commercial operation on 1 July 2007 with "The Westin Dhaka" which is a Five Star Hotel in Bangladesh. The principal activities of the Company over the period were carrying out hotel business through a Management Contract dated 20 December 1999 (renewed on 9 April 2015) executed between Unique Hotel & Resorts PLC ("the Owner") and Starwood Asia Pacific Hotels & Resorts Pte. Ltd. ("the operator"), now Marriott International. The Operator is knowledgeable and experienced in managing and promoting five-star hotels and resorts and has (and/or its Affiliates have) performed such services throughout the world.

In terms of Management Contract, the operator is entitled to receive base fee, license fee, incentive fee, program service fee and institutional marketing fee from the owner on account of operation of the Hotel only. In addition, under the contract, the operator is entitled to receive centralized service fees for developing, promoting, operating, maintaining and upgrading the centralized services and associated Starwood technology. The Company owns an international standard hotel in the name and style of "HANSA, A Premium Residence" which has started its operation from July 2018.

Considering the emerging business opportunity in this arena, Unique Hotel & Resorts PLC has constructed another Branded 5-Star Chain Hotel namely the "Sheraton Dhaka". Sheraton Dhaka has 248 rooms of different categories including Presidential and Chairman Suits, restaurants, Banquet Hall, Health Club, Spa, and Gym facilities. Two restaurants and banquet hall has been operating since February 2022 through obtaining restaurants license from District Commissioner Office. We are expecting to open the said hotel "Sheraton Dhaka" very soon.

### ECONOMIC OVERVIEW

The world economy is at a precarious moment. Heightened trade tensions, along with policy uncertainty, have significantly weakened the global economic outlook for 2025. Higher tariffs resulting in a significant increase in the effective tariff rate in the United States of America are likely to strain global supply chains, drive up production costs and delay critical investment decisions, while also contributing to financial market volatility.

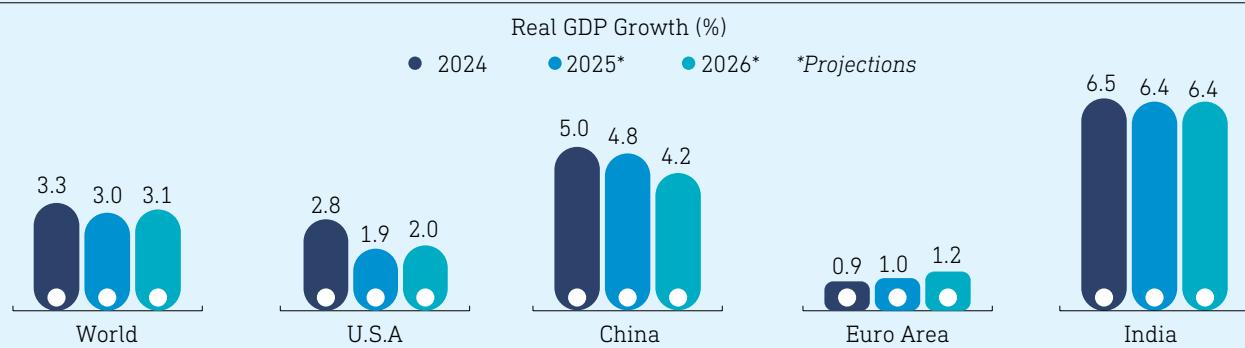

The global economy during the 2024-2025 financial year showed steady but slow growth of around 3.2% in 2024, with a slight moderation to about 3.1% in 2025, according to the IMF. Inflation is projected to continue to decline globally, though with variation across countries: above target in the United States with risks tilted to the upside and subdued elsewhere. Global growth is projected at 3.0 percent for 2025 and 3.1 percent in 2026. The forecast for 2025 is 0.2 percentage point higher than that in the reference forecast of the April 2025 World Economic Outlook (WEO) and 0.1 percentage point higher for 2026. This reflects stronger-than-expected front-loading in anticipation of higher tariffs; lower average effective US tariff rates than announced in April; an improvement in

financial conditions, including due to a weaker US Dollar; and fiscal expansion in some major jurisdictions. Global headline inflation is expected to fall to 4.2 percent in 2025 and 3.6 percent in 2026, a path similar to the one projected in April. The overall picture hides notable cross-country differences, with forecasts predicting inflation will remain above target in the United States and be more subdued in other large economies. Risks to the outlook are tilted to the downside, as they were in the April 2025 WEO. A rebound in effective tariff rates could lead to weaker growth. Elevated uncertainty could start weighing more heavily on activity, also as deadlines for additional tariffs expire without progress on substantial, permanent agreements. Geopolitical tensions could disrupt

global supply chains and push commodity prices up. Larger fiscal deficits or increased risk aversion could raise long-term interest rates and tighten global financial conditions. Combined with fragmentation concerns, this could reignite volatility in financial markets. On the upside, global growth could be lifted if trade negotiations lead to a predictable framework and to a decline in tariffs. Policies need to bring confidence, predictability, and sustainability by calming tensions, preserving price and financial stability, restoring fiscal buffers, and implementing much-needed structural reforms.

#### IMF GDP Growth Forecast

*Source: IMF*

#### IMF Inflation Forecast

*Source: IMF*

The IMF projects global inflation to continue declining, with global headline inflation falling to 4.2% in 2025 and 3.5% in 2026, though underlying (core) inflation is expected to fall more gradually. The United States' inflation is expected to remain above target, while other countries will likely see inflation return to target earlier. The overall outlook is subject to significant downside risks, including trade tensions and policy uncertainty.

#### Global Outlook

The global economic outlook is one of moderate growth, but with significant downside risks and regional variations. Global growth is slowing due to a substantial rise in trade barriers and the pervasive effects of an uncertain global policy environment. Growth is expected to weaken to 2.3 percent in 2025, with deceleration in most economies relative to last year. This would mark the slowest rate of global growth since

2008, aside from outright global recessions. In 2026-27, a tepid recovery is expected, leaving global output materially below January projections. Progress by emerging market and developing economies (EMDEs) in closing per capita income gaps with advanced economies and reducing extreme poverty is anticipated to remain insufficient. The outlook largely hinges on the evolution of trade policy globally. Growth could turn out to be lower if trade restrictions escalate or if policy uncertainty persists, which could also result in a build-up of financial stress. Other downside risks include weaker-than-expected growth in major economies with adverse global spillovers, worsening conflicts, and extreme weather events. On the upside, uncertainty and trade barriers could diminish if major economies reach lasting agreements that address trade tensions. The ongoing global headwinds underscore the need for determined multilateral policy efforts to foster a more predictable and transparent environment for resolving trade tensions, some of which stem from macroeconomic imbalances. Global policy efforts are also needed to confront the deteriorating circumstances of vulnerable EMDEs amid prevalent conflict and debt distress, while addressing long-standing challenges, including the effects of climate change. National policy makers need to contain risks related to inflation as well as strengthen their fiscal positions by raising additional domestic revenues and reprioritizing spending. To facilitate job creation and boost long-term growth prospects in EMDEs, reforms are essential to enhance institutional quality, stimulate private investment growth, develop human capital, and improve labour market functioning.

The outlook for global inflation has become more uncertain since last year due to a combination of shocks. Most notably, substantial tariff hikes are set to exert upward pressure on consumer inflation in key economies by raising prices for imported consumer goods and inputs into production and redirecting demand toward domestic production that is relatively inelastic in the short run. Persistent underlying inflationary pressures, coupled with the impact of rising tariffs and trade protectionist measures, are anticipated to delay the normalization of global inflation to levels broadly consistent with inflation targets. On a GDP weighted basis, global inflation is projected to average 2.9 percent in both 2025 and 2026, before easing to 2.5 percent in 2027 about in line with the average inflation target. However, there is significant heterogeneity across countries, with inflation projections revised slightly lower in EMDEs in 2025 due to the impact of weaker demand for traded goods, while being revised significantly higher in advanced economies, primarily the United States.

## BANGLADESH'S ECONOMY

The brunt of the conflicting situation in the world can affect the social, political, and economic aspects of the globe including Bangladesh. The economy of Bangladesh continues to face multiple challenges amid elevated global uncertainty, according to experts. According to the provisional estimates of Bangladesh Bureau of Statistics (BBS), GDP growth rate for FY 2024-25 stood at 3.97 percent as against 4.22 percent in the final estimates for FY 2023-24. According to the provisional estimates of Bangladesh Bureau of Statistics (BBS) for the fiscal year 2024-25, the GDP size at current prices is 55,52,753 crore Taka (462 billion US Dollar), which was 50,02,654 crore Taka (450 billion US Dollar) in the previous fiscal year 2023-24.

However, Bangladesh's economy is showing signs of a gradual recovery, though GDP growth remains under pressure. The GDP growth rate in the second quarter of the current fiscal year (Q2 of FY25) is 4.48 per cent, according to BBS. In the Monetary Policy Statement (MPS) for January-June 2025, Bangladesh Bank forecasts GDP growth at around the 4.0-5.0 per cent in FY25. Development partners – World Bank, IMF and ADB – whose growth projections have nearly always been conservative have, however, predicted lower growth rates for the economy. World Bank's growth prediction is 3.3 per cent, IMF is 3.76 per cent while that of ADB is 3.9 per cent.

Despite the sluggish pace, the economy is gradually moving towards recovery in the quarter under review (Q3 of FY25). Export earnings and remittance inflows are helping to stabilize the foreign exchange reserves and revitalize the rural economy - factors which are contributing positively to macroeconomic stability. Severe regulatory lapses in the banking sector and massive loan scams have delayed the recovery of the macroeconomy. However, recent efforts to reform the banking sector and restore public confidence in financial institutions will be vital to reviving GDP growth. Bangladesh's economy is expected to grow by 4.8% in FY2025-26, compared to 4% last year. But urgent reforms are needed to maintain the upward and inclusive growth trajectory and create more jobs.

## INFLATION

In Bangladesh, inflation remains a pressing concern, with projections exceeding 10% in 2025, threatening to further increase the cost of living and potentially destabilize both macroeconomic and sociopolitical stability. In a survey of economists conducted by Economic Intelligence Bangladesh, 40% identified inflation as the primary economic challenge facing the country. The central bank's measures to control inflation have been rated only moderately effective, indicating scepticism about their impact. However, inflation in Bangladesh is driven by a combination of supply-side pressures, including the Ukraine war's impact on global supply chains, and domestic issues like the depreciation of the Bangladeshi Taka against the US Dollar. Other factors include high food and fuel prices, high costs for imports due to currency depreciation, and, to a lesser extent, demand-side pressures.

## INDUSTRY OUTLOOK AND POSSIBLE FUTURE DEVELOPMENT

Tourism industry in Bangladesh comprises many beautiful natural landscapes, historical sites and cultural aspects. The country has serene beaches, historic mosques, vibrant tea estates etc. offering a wide range of experiences to the tourists of all ages and interests. While its natural beauty has long captivated domestic travellers, Bangladesh's tourism industry is witnessing a rise in international travellers, demonstrating its potential as a significant contributor to the national economy. Bangladesh's tourism and hospitality industry is set for rapid expansion, yet academic institutions are failing to produce enough skilled graduates, leaving a severe manpower shortage that threatens its potential. The Bangladesh Tourism Board's "National Tourism Human Capital Development Strategy" projects workforce demand will rise by 45% by 2030 from 2.9 million in 2022 to over 4.3 million. According to the Bangladesh Bureau of Statistics (BBS), the hospitality industry has seen consistent growth in the past decade, fuelled by rising incomes, expanding domestic tourism, and an influx of foreign business visitors. The hospitality and tourism sector contributes around 4.4 percent to the country's GDP, a number projected to grow steadily, as per BBS. The World Travel and Tourism Council (WTTC) has forecast that the sector could create over 2.5 million jobs by 2033, up from around 1.6 million in 2023.

A significant portion of the country's GDP comes from the tourism and hospitality industry. The industry now contributes more than 3% of the GDP, bringing in revenue of \$13.8 billion, up from a meagre 0.066% in 1995. Additionally, analysts are

optimistic about the future, projecting a steady annual growth rate of 4.8% from 2024 to 2028. The surge in foreign tourists, estimated to have reached 0.7 million in 2023 alone, is driving this expansion, and by 2028, it may reach a potential market size of \$2,634 million. This projected growth suggests a promising industry with enormous potential.

- The hotel market is expected to grow at an annual rate of over 15% and reach a projected volume of over US\$2.5 billion by 2030.
- The number of users in the hotel market is projected to grow significantly, reaching over 16 million users by 2030.
- Online channels are expected to generate the majority of revenue, with estimates suggesting 64% of total hotel revenue will come from online sales by 2030.
- The government has allocated significant funds to the sector and is promoting tourism through various initiatives, which will help fuel future growth.
- A surge in domestic travel is a primary driver, with domestic tourists accounting for over 90% of hotel occupancy in key tourist spots like Cox's Bazar and Sylhet.
- The sector is attracting investment in new hotels and resorts, including international chains, with expansion now spreading to second-tier cities.

Bangladesh's tourism sector is appealing, even outside of these well-known hotspots. The excitement of discovering hidden gems in remote locations attracts younger and more adventurous people.

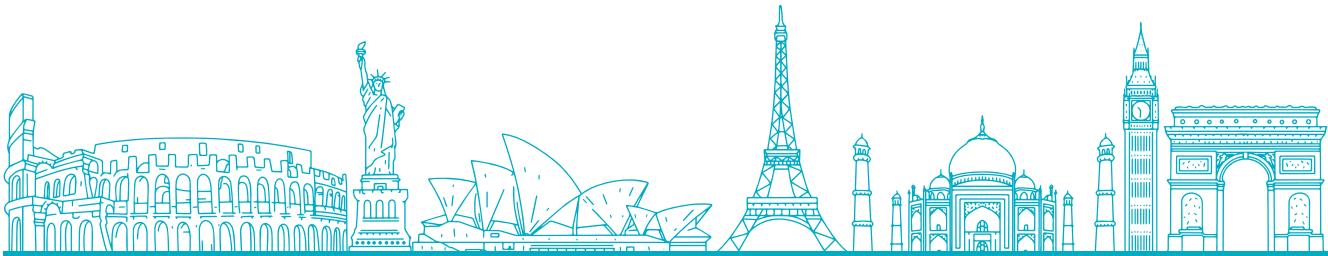

### WTTC's latest annual research shows:

In 2024, Travel & Tourism's contribution to global GDP totalled US\$ 10.9 trillion. This includes direct, indirect, and induced impacts of the sector. As a share, Travel & Tourism represented 10% of the global economy.

Travel & Tourism is also an important source of employment. In 2024, the sector supported a total of 357 million jobs globally, which is approximately 1 in 10 jobs.

Domestic visitors spent US\$ 5.3 trillion, growing 5.4% over the 2023 level. At the same time, spending by international visitors increased 11.6% annually to reach US\$ 1.9 trillion.

### Highlights of Travel & Tourism - Worldwide

- The Travel & Tourism market is projected to experience a significant increase in revenue in the coming years worldwide.
- By 2025, revenue is estimated to reach US\$988.52bn and is projected to grow annually at a rate of 7.07%, resulting in a market volume of US\$1.39tn by 2030.
- The largest market within Travel & Tourism is the Hotels market, which is projected to reach a market volume of US\$455.15bn in 2025.
- Looking ahead, the number of users in the Hotels market is expected to increase to 1.86bn users by 2030.
- In 2025, the user penetration rate was 26.7%, and it is expected to reach 33.3% by 2030.
- The average revenue per user (ARPU) is projected to reach US\$472.24.
- Online sales are expected to account for 76% of total revenue in the Travel & Tourism market by 2030.
- It is worth noting that United States is expected to generate the most revenue in this market, reaching US\$234bn in 2025.
- Following the profound ramifications of the COVID-19 pandemic, the travel and tourism sector demonstrates robust indications of resurgence.

## Tourism outlook for 2025

The tourism market in Bangladesh is expected to grow at a CAGR of nearly 15% between 2025-2030, achieving revenue of approximately \$4.9 billion by 2030, 2025 itself is marked by continued underutilization of potential and concerns over low revenue despite visitor growth. Despite an increase in the number of foreign tourists, earnings have not increased significantly, with revenue falling in 2024 compared to 2023.

Many destinations reported strong growth in receipts in the first half of 2025

- International tourism receipts show strong earnings through June 2025 in major destinations such as Japan (+18%), the United Kingdom (+13% through March), France (+9%), Spain (+8%) and Türkiye (+8%).
- Strong travel demand can also be seen in outbound spending from some large markets such as China (+16% through March), Spain (+16%), the UK (+15% through March), Singapore (+10%) and the Republic of Korea (+8%).
- In 2024 international tourism receipts grew 11% to a record 1,734 billion US Dollar, about 14% above pre-pandemic levels (real terms) reflecting already strong visitor spending around the world last year.

Tourism inflation is expected to ease from 8.0% in 2024 to 6.8% in 2025 (projections using tourism inflation proxy) but would remain well above the pre-pandemic value of 3.1% and significantly above overall inflation (4.3%).

## RISKS AND CONCERNs

The Company maintains a proactive approach to risk management through a robust Enterprise Risk Management (ERM) framework, while inflation, currency depreciation and commodity price volatility pose operational challenges. Regulatory changes and evolving compliance requirements, including shifts in tax policy and trade regulations, require agile responses to safeguard operational continuity. Supply

chain disruptions, driven by geopolitical instability and climatic factors, further highlight the need for resilience and contingency planning. Digital transformation, while opening new opportunities, has also elevated exposure to cyber threats and fraud. In response, the company has strengthened its internal controls and cybersecurity infrastructure. Meanwhile, growing stakeholder expectations around ESG have reinforced the organization's focus on advancing and evolving its ESG

program. Through regular risk assessments and Board oversight, the company continues to monitor these dynamic factors closely, aiming to mitigate potential disruptions and ensure sustainable long-term growth in Bangladesh's evolving market environment.

#### **The major risk concerns are:**

Details of risks and concerns, including internal and external risk factors are discussed on page 150 of this Annual Report.

#### **INTERNAL CONTROLS**

At UHR PLC, we are committed to maintaining a strong internal control environment that supports effective governance and risk management across the organization. Our internal control framework and activity have been designed considering organizational excellence and closely monitored by the Board and Audit Committee. The Audit Committee works in collaboration with the management, internal auditor and external auditors to ensure that key risks are addressed, and controls are functioning effectively. Policies and Controls to prevent fraud and ensure operational efficiency are embedded across our financial process. In order to ensure organizational independence of Internal Audit, the head of Internal Audit reports functionally to Audit Committee and administratively to the Managing Director. Internal Audit team regularly monitors whether the appropriate Accounting Policies have been consistently applied in preparation of the financial statements. Bangladesh Accounting Standard and International Accounting Standards, as applicable in Bangladesh, have been followed and adequately disclosed. Internal audit is being carried out by M/S. Hoda Vasi Chowdhury & CO., a renowned Chartered Accountancy firm in Bangladesh, along with internal audit team of The Westin Dhaka and Sheraton Dhaka.

#### **IT SECURITY**

The Company operates under a robust IT security framework guided by the policies and protocols established by our company. These stringent standards ensure the highest levels of data protection and cybersecurity across our operations.

All employees, across all grades and functions, are regularly trained and sensitised on IT security best practices, reinforcing a culture of vigilance and accountability in managing digital risks. However, the Company recognizes the potential risk of business disruption resulting from cyber-attacks and unauthorized access to sensitive information. The Board has taken necessary precautions to minimise the risk of a security breach. During the year under review, necessary steps have been rolled out to curtail the exposure to cyber-attacks by reducing the threat surface and any potentially exploitable vulnerabilities. To mitigate these risks, the Company has implemented advanced cybersecurity technologies across its ecosystem, incorporating preventive, detective, and responsive controls. Regular internal assessments and simulation exercises are conducted to evaluate the effectiveness of these controls and to ensure stakeholder readiness. While comprehensive systems, security protocols, and disaster recovery plans are in place, the Board of Directors disclaims liability for any loss or disruption arising from unforeseen IT system failures or security breaches that are beyond its reasonable control.

Name of those related parties, nature of those transactions and their total value has been shown in below table in accordance with the provisions of IAS-24 "Related Party Disclosure" and details of related parties and related party transactions have been disclosed in Note 44 on page 292 of the Financial Statements for the year ended 30 June 2025.

## UTILIZATION OF PROCEEDS

The amount of Initial Public Offering (IPO) proceeds / fund has been fully utilized in 30 April 2017. After the listing with Stock Exchanges, the Company not issued right and/or through any others instruments for raising its capital yet.

## FINANCIAL RESULT DETERIORATION AFTER THE PUBLIC ISSUE

This is not applicable for Unique Hotel & Resorts PLC. UHR PLC went for Initial Public Offering (IPO) in 2012. Subsequently, Unique Hotel & Resorts PLC did not go for any sort of offering since then.

## PRIOR YEAR ADJUSTMENT AND RETROSPECTIVE RESTATEMENT

In accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, the Company corrected a prior-period error arising from the determination of the functional currency of its joint venture, Unique Meghnaghat Power Limited (UMPL). UMPL previously prepared its financial statements in Bangladesh Taka (BDT); however, upon reassessment in line with IAS 21 The Effects of Changes in Foreign Exchange Rates, its management determined that the functional currency is the United States Dollar (USD), as most revenues, costs, and financing are denominated in USD. The change has been applied retrospectively by UMPL. Accordingly, Unique Hotel & Resorts PLC (UHRL)—which accounts for its investment in UMPL using the equity method—has restated its comparative figures to reflect the impact of this correction. The restatement affected the Company's Investment in Joint Venture, Retained Earnings, and Hedging Reserve balances.

The correction has been applied retrospectively in accordance with IAS 8. As required by IAS 1 Presentation of Financial Statements, UHRL has presented (a) the current period as at 30 June 2025, (b) restated comparative information as at 30

June 2024, and (c) a third statement of financial position as at 1 July 2023. The restatement had no impact on total equity as at 30 June 2025 but resulted in adjustments to opening retained earnings and investment balances as at 1 July 2023 due to translation effects from UMPL's functional currency correction.

#### APPOINTMENT OF INDEPENDENT DIRECTOR

Pursuant to Bangladesh Securities and Exchange Commission's Corporate Governance Code-2018 (and amendments thereof) the tenure of office of an Independent Director shall be a period of three years, which may be extended for another term. In this regard, the tenure of Mr. Mohammed Forkanuddin FCA successfully completed the consultative two tenure of office as Independent Director and Professor Mohammed Ahsan Ullah successfully completed the first tenure of office as Independent Director and also decided not to extend the 2nd term. The said tenure for both Independent Directors expired in the 23rd AGM dated 19 December 2024.

Accordingly, the Bangladesh Securities and Exchange Commission (BSEC) vide their Letter No. BSEC/ICAD/CG/2024/200/464 dated 19 December 2024 has accorded the consent to the appointment of Barrister Fatema Anwar and Mr. Ali Ashfaq FCA as Independent Directors of Unique Hotel & Resorts PLC which has also been approved by the shareholders in the 23rd Annual General Meeting of the Company held on 19 December 2024.

It is mentionable here that, Barrister Fatema Anwar, Independent Director of Unique Hotel & Resorts PLC has tendered her resignation from the office of the Independent

Director as she has been appointed as the additional Justice of the Supreme Court of Bangladesh, High Court division for two years by the executive Order on 25 August 2025 of Hon'ble President of the People's Republic of Bangladesh. Since it is a Constitutional post, her Oath does not permit to engage in any other responsibility, hence, she is unable to continue as Independent Director in the Board of Directors of Unique Hotel & Resorts PLC. Upon recommendation of the NR Committee, The Board of Directors in its 183rd meeting held on 31 August 2025 has duly accepted her resignation with effect from 25 August 2025.
